PROFILE

I am a BCA student with an interest in full-stack web development. Skilled in HTML, CSS, JavaScript, and Django, with hands-on experience building academic projects including an Online Voting System and MeroWorker. Eager to gain industry experience, enhance technical skills, and contribute to real-world development projects in a collaborative environment.

EDUCATION

Bachelor in Computer Applications (BCA)

Southwestern State College, Bashudhara, Kathmandu

Currently in 7th Semester

PROJECTS

Online Voting System

Academic project developed during the 4th semester of BCA. The system allows users to participate in online voting through a digital platform.

Technologies Used: HTML, CSS, JavaScript, PHP

Repository: <https://github.com/aisingthokAR/4semProject>

MeroWorker

MeroWorker is an online service booking platform where customers can book workers for home maintenance services. The system helps users find suitable workers based on their location and service needs.

Technologies Used: HTML, CSS, JavaScript, Django

Repository: <https://github.com/aisingthokAR/MeroWorker>

SKILLS

- Programming Languages: Python, Django
- Web Technologies: HTML5, CSS, JavaScript
- Version Control: Github
- Database Management Systems: MySQL, Postgresql
- Design Tools: Figma

LANGUAGES

Nepali, Hindi, English
